Objective

Highly motivated Computer Science graduate with a passion for programming seeking opportunities to apply technical skills and knowledge in a dynamic software development environment. Dedicated to continuous learning and growth in the field of computer science.

Projects

Windows OS Clone

REACT, CSS

- Built this projects as ISA for my Third Year
- Was awarded for the "Best Project ever Submitted"

Jumping Frog Puzzle

PYTHON

- Created the Algorithm and Code to solve for the famous Jumping Frog Puzzle.
- Done in pair programming with one of my colleague, showcasing strong teamwork and communication skills

Grocerio

MERN

- Worked in a team of 5 to create a web app from scratch.
- Even though I didn't have experience at first, I quickly learned and helped build a project that could grow and work well within three months.
